

# S TEST 2000

## Robust - Safe - Easy to use

Inside your workshop, the test bench S TEST 2000 allows you to safely test your hoses up to 2000 bars (29000 psi). A spacious compartment made out of strong steel locates the coils. Advanced testings are made thanks to options such as autonomous hose filling (with ISD), low pressure (40-300 bars)/580-4400 psi), blowing and particles aspiration. Pressurizing with oil or water.

### Main Features

- Easy to use and robust
- Safe : Steem compartment, polycarbonate window and metal mesh
- Possibility to test up to 6 hoses
- Pallet loading with a forklift
- ISD Option : automation, test report and data backup

### Technical features

Indicative capacity	120 cm (48 inches)
Maximum pressure	2000 bar (29000 psi)
Hose connection	6 maximum
Mini. compressed air input	8 bar (116 psi)
Standard fluid used	Water / oil
Mini. recommended test pressure	260 bars (3780 psi) (low pressure option: 40 bars (580 psi))
Opening/Closing time	10-14 sec
Dimensions	Tank : 1456 x 1200 x 900 Panel : 700 x 1200 x 1220
Packing details	1600 x 1200 x 1280 1000 x 1200 x 1280 550 kgs / 1210 pounds
